

Kit4Cat

Cat Urine Collection Made Easy

Revolutionary hydrophobic litter that keeps the cat's urine on top!

Noninvasive

100% Natural

Easy to Use

Cats Love it

Kit4Cat is the name of our patented hydrophobic litter that keeps cat urine on top, making sample collection stress-free! The "litter" smells and feels like regular sand with a natural non-toxic repellent coating. It allows veterinarians, technicians and cat parents to easily passively collect a urine sample without resorting to painful invasive procedures like Cystocentesis. The kit comes with everything you need to collect a urine sample.

Kit4Cat is approved by veterinarians around the world, having gone through extensive validation testing. Since 2010, Kit4Cat has been used in clinics and hospitals in 44 countries worldwide. It is sold by every major veterinary distributor. Because this method is easy to facilitate and the acceptance rate is so high, Kit4Cat is regarded as the most humane and ideal method for noninvasive urine collection.

- 100% natural and non-toxic
- Cat owners can collect a sample at home
- Recommended by top veterinarians
- Another quality product for you to sell
- Available from top US & Canadian distributor

Everybody loves Kit4Cat

"We have started to use the Kit4Cat sand in place of the Nosorb. Clients and their cats like it more. We love the product."

Dr. Cynthia Wojcicki, Merrimac Valley Animal Hospital.

"We thought the kit was great."

Karen Campbell, Veterinary Technician, Smithtown Valley Animal Hospital

"4 days with Nosorb litter, cat kept urinating on paper or blanket. When sand came in, put in cage and overnight cat used box, able to obtain free catch sample."

Andrea Stoops, Vet Nurse, Ayer Animal Medical Center

HOW TO USE

Pour the litter

Pour all hydrophobic litter in a clean and empty litter box.

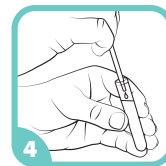

Wait for your cat

Allow your cat to urinate freely on the hydrophobic litter.

Collect sample

Easily collect urine from the top of the litter with the pipette.

Fill the vial

Fill the vial at least 3/4 way using the pipette.

Store the sample

Close the vial with the cap and keep in refrigerator for up to 48h.

Further analysis

Take the sample to your vet for further testing.

In the box

- 3x 11oz bags of Kit4Cat hydrophobic sand
- 3x disposable pipettes for urine sample collection
- 3x disposable vials with caps for holding urine sample

100% Natural
Biodegradable

Lab Validated

Vet Approved
